

PIERCING AFTERCARE

Belly Button / Ears / Eyebrow

- 1. Wash your hands. Only touch the piercing with clean hands.**
- 2. Clean piercing while in the shower to remove any crusties (these are similar to eye boogers you get from sleeping) from the ring or barbell before you rotate the ring or move the barbell.**
- 3. Do not use the following on your piercing:**
 - Neosporin**
 - Peroxide**
 - Rubbing Alcohol**
 - Witch Hazel**
- 4. Only use saltwater with a Q-tip to promote healing no more than 2 or 3 times a week.**
- 5. Do not overuse saltwater on piercing!**
- 6. Do not touch piercing while it is healing, except when cleaning.**
- 7. Remember : always call Buck-A-Tattz for any additional information on piercing aftercare.**
